

Healthy Home Assessment

KITCHEN

- 1. What type of cookware (pots and pans) do you use?
- 2. What type of containers do you use to store food?
- 3. What form of food do you use most often canned, fresh, frozen?
- 4. What containers do you use for drinking water?

BATHROOM

- 1. On average, how many personal care products do you use (lotions, powders, sprays, cosmetics, cleansers) on a regular basis?
- 2. How many of your personal care products list unspecified 'fragrance' on the list of ingredients?
- 3. What type of hand soap do you use?
- 4. If you have a shower curtain, what type of material is it?

LAUNDRY AND CLEANING CLOSET

- 1. Do all your cleaning products include an ingredients list? If so, can you pronounce them?
- 2. How many of your laundry and cleaning products list unspecified 'fragrance' on the list of ingredients?
- 3. How many laundry products do you use (dryer sheets, fabric softener, bleach)?

ALL AROUND THE HOUSE

- 1. Does your house contain lead paint?
- 2. What type of stain protection is on your carpeting and upholstery?
- 3. Do you use artificial air fresheners or scented candles on a regular basis?
- 4. Do you use pesticides or insecticides inside or outside of your house?
